### **About the course:**

Occurrences of PC related wrongdoing and broadcast communications extortion have expanded significantly. Be that as it may, in view of the elusive idea of this wrongdoing, there have been not very many arraignments and even fewer feelings.

The new innovation that has taken into consideration the headway and robotization of numerous business forms has additionally opened the way to numerous new types of PC manhandle. Albeit some of these framework assaults simply utilize contemporary techniques to carry out more established, more natural kinds of wrongdoing, others include the utilization of totally new types of criminal activity that advanced alongside the innovation.

The Online Certificate Course offered by Oriental University in Collaborations with CYBERTALKINDIA, intends to spread awareness among the general public about computer crime investigation and computer forensics.
