About the course:

In recent years, the use of computers and internet has risen and now, computers are an integral and indispensable part of any professional, commercial and industrial activity. The development of information technology continues to give rise to novel and complex legal problems related to the use of internet and computers. Cyber Law is the law regulating the cyberspace and it is still in a nascent stage and continuously evolving every passing day. Even the most learned legal luminaries find it difficult to solve the legal problems posed by technology.

The Online Certificate Course offered by Oriental University in Collaborations with CYBERTALKINDIA, intends to spread awareness among the general public about the cyber law and it is specifically beneficial to the lawyer community who face cases on a daily basis. The scope and ambit of the course are very vast and covers every aspect of the Cyber Law related issues, which involves the use of a computer or the internet. This program highlights Cyber Laws in the areas of Electronic Commerce, Electronic Contracts, Need for Cyber Law in India, National Policy on Information Technology 2012, important terms related to Cyber Law, History of the Internet and World Wide Web, (and many more topics mentioned below in the syllabus)

Who can pursue?

Anyone who has access to a computer and the Internet can enroll for the Certification Course.

Duration of Course: 2 Months

About the exam: The exam will consist of 20 questions, 5 marks each. For passing, you need to secure a minimum of 40%. No negative marking.
